Since 1985 the Prevent Cancer Foundation has provided more than \$125 million in support of cancer prevention research, education and outreach programs nationwide. Founded by Carolyn Aldigé in memory of her father, the Foundation has played a pivotal role in saving lives through cancer prevention and early detection. In 2011, 84 cents of every dollar raised was used to support programs. Proceeds from the gala will support the Foundation's 21st Century Young Scientists Fund for research grants and fellowships, and the Foundation's local cancer education and screening programs: ¡Celebremos la Vida! (free breast and cervical cancer education, screening and early detection program for Latinas over the age of 40); the Mammovan; and community programs nationwide.

2012 Gala Spring Auction

A silent auction benefitting cancer research fellowships and community outreach programs will be held the evening of the event. Please visit www.preventcancer.org for additional information and auction item preview.

This is a widely attended event, meeting all standards of official conduct.

The mission of the Prevent Cancer Foundation is saving lives through cancer prevention and early detection.
