Dialogue for Action™ on Colorectal Cancer Screening:

Prevention **Now** for a Healthier Tomorrow

- Participate in an informative, lively and provocative conference on CRC screening
- Examine health care reform and the emerging health care system from the perspective of CRC screening
- Discuss the role of public health in prevention and early detection beyond 2014
- Exchange ideas about primary care and community prevention, medical homes, health information technology, the business of prevention, modalities and guidelines, programs and best practices
- Network with a diversity of dynamic professionals and advocates
