10:30 a.m. – 12:30 p.m.

WORKSHOP ON 21st CENTURY CURES AND SENATE INNOVATION ACT: WHERE DO WE GO FROM HERE?

The 21st Century Cures Act is a far-reaching piece of legislation that moves medical research forward in the United States, streamlines certain approval processes, and dedicates funding to the FDA and the NIH. It also shows a bipartisan commitment to health research and to compromise, having passed the House 344-77. Now, however, the Senate's version is stalled and it isn't clear when/if it will move forward. This panel will discuss the advocacy work that was done by organizations and individuals all across the country to pass the House bill, what can be done to move the process forward in the Senate—and what we do if we run out of time before it passes during this Congress.

Moderator:

Speakers: Mary Lee Watts, American Association for Cancer Research

COLORECTAL CANCER SCREENING WORKSHOPS CO-SPONSORED BY THE PREVENT CANCER FOUNDATION AND THE NATIONAL COLORECTAL CANCER ROUNDTABLE

1:00 – 2:25 p.m. Workshop #1: Steps for Increasing Colorectal Cancer Screening Rates: A Manual for Community Health Centers

This session will introduce participants to a National Colorectal Cancer Roundtable resource: "Steps for Increasing Colorectal Cancer Screening Rates: A Manual for Community Health Centers." The manual provides instructions to enable Community Health Centers to implement expert-endorsed processes for improving colorectal cancer screening and follow-up care — one step at a time. This session will go over how to use the manual, give a high level overview of specific sections and introduce participants to the many resources in the appendix.

2:35 – 4:00 p.m. Workshop #2: 80% by 2018 Communications Guidebook: Effective Messages for Reaching the Unscreened

The goal of this session is to introduce users to the new 80% by 2018 Communications Guidebook, which provides tested messages and advice for reaching five key populations if we are to get to 80% screening rate by 2018: The newly insured, the rationalizer/procrastinator, the financially challenged, African Americans and Hispanics. The session will also introduce participants to new tested materials for Spanish speakers.
